Your Touchstone Energy® Cooperative 

RATE INDEX

CLASS 2 – SEASONAL

211 - Seasonal Residential, Single-Phase

212 - Seasonal Residential, Single-Phase - Electric Heat

213 - Seasonal Residential, Single-Phase - Net Metering Member Generation

214 - Seasonal Residential, Single-Phase - Net Billing Member Generation

215 - Seasonal Residential, Single-Phase – Electric Vehicle Charging

Midwest Electric Cooperative Corporation

2026 Rate Schedule

Rate: SEASONAL RESIDENTIAL, SINGLE-PHASE			Rate Number 211
Rate Class: 2 - Seasonal	Rate Cycle: 211	Approved: December 18, 2025	Page 1 of 1

Availability

Service to accounts where at least one person resides for at least part of a year. May include associated well(s), outbuildings and other structures or loads. Maximum connected load under this rate may not exceed that which may be supplied from a fifty (50) kVA distribution transformer. Subject to current conditions and safety standards established by the National Electric Safety Code, Nebraska State Electrical Division and Midwest.

Type of Service

Single-phase, sixty (60) Hertz, alternating current, at available secondary voltages.

Rate

Billed monthly

Facility Charge.....	\$ 39.50
First 500 kWh	\$ 0.131 per kWh
Over 500 kWh.....	\$ 0.084 per kWh

A Power Cost Adjustment may be applied to reflect changes in Midwest Electric's wholesale cost of power.

Terms of Payment

Payment is due on the 25th of the month following the period for which the bill is calculated. If the 25th falls on a weekend or holiday, the due date will be the next business day after the 25th.

A late charge of \$10 or 10%, whichever is greater, will be assessed on any account not paid on or before the due date. In addition, accounts still owing a balance at month end will be charged an additional 1.33% interest (interest is not charged on the penalty charges).

Midwest Electric Cooperative Corporation

2026 Rate Schedule

Rate: SEASONAL RESIDENTIAL, SINGLE-PHASE ELECTRIC HEAT			Rate Number 212
Rate Class: 2 - Seasonal	Rate Cycle: 212	Approved: December 18, 2025	Page 1 of 1

Availability

Service to accounts where at least one person resides for at least part of a year. May include associated well(s), outbuildings and other structures or loads. Maximum connected load under this rate may not exceed that which may be supplied from a fifty (50) kVA distribution transformer. Must have a separately metered, permanently installed heating unit as the primary heat source for the residence. Midwest will provide the meter to record the usage by the heat source – member must pay for the cost of installing the wiring for the meter. Subject to current conditions and safety standards established by the National Electric Safety Code, Nebraska State Electrical Division and Midwest.

Type of Service

Single-phase, sixty (60) Hertz, alternating current, at available secondary voltages.

Rate

Billed monthly

Facility Charge.....	\$ 39.50
First 500 kWh	\$ 0.131 per kWh
Over 500 kWh.....	\$ 0.084 per kWh

A Power Cost Adjustment may be applied to reflect changes in Midwest Electric's wholesale cost of power.

Electric Heat Discount

Credited only during the months of October through April.

Credit for energy through Heat Meter -\$ 0.025 per kWh

Terms of Payment

Payment is due on the 25th of the month following the period for which the bill is calculated. If the 25th falls on a weekend or holiday, the due date will be the next business day after the 25th.

A late charge of \$10 or 10%, whichever is greater, will be assessed on any account not paid on or before the due date. In addition, accounts still owing a balance at month end will be charged an additional 1.33% interest (interest is not charged on the penalty charges).

Account Setup

Electric Heat Meter will be a separate account in rate 262 with the accounts joined with a Multi-Meter setup in Meridian.

Midwest Electric Cooperative Corporation

2026 Rate Schedule

Rate: SEASONAL RESIDENTIAL, SINGLE-PHASE NET METERING MEMBER GENERATION			Rate Number 213
Rate Class: 2 - Seasonal	Rate Cycle: 213	Approved: December 18, 2025	Page 1 of 1

Availability

Service to accounts where at least one person resides for at least part of a year. May include associated well(s), outbuildings and other structures or loads. Maximum connected load under this rate may not exceed that which may be supplied from a fifty (50) kVA distribution transformer. Available when member has a renewable generation source installed behind the meter, not to exceed 25 kW AC. Subject to current conditions and safety standards established by the National Electric Safety Code, Nebraska State Electrical Division and Midwest. Midwest will accept Net Metering service applications up to 1% of our average monthly peak system load.

Type of Service

Single-phase, sixty (60) Hertz, alternating current, at available secondary voltages.

Usage Calculation

At the end of each billing period, the energy the Member sells back to Midwest will be subtracted from the energy purchased from Midwest by the Member. If the net amount is delivered to the Member (more purchased than sold), the bill will be generated based on that net amount. If the net amount is received by Midwest (more sold than purchased), the net amount purchased will be credited back to the Member at Midwest's current wholesale cost of energy. The member is responsible for the Facility Charge regardless of the net amount.

Rate

Billed monthly

Facility Charge.....\$ 39.50
 First 500 kWh (if net is delivered).....\$ 0.131 per kWh
 Over 500 kWh (if net is delivered)\$ 0.084 per kWh
 All kWh (if net is received)...Credited at Midwest's wholesale cost of energy

A Power Cost Adjustment may be applied to reflect changes in Midwest Electric's wholesale cost of power.

Terms of Payment

Payment is due on the 25th of the month following the period for which the bill is calculated. If the 25th falls on a weekend or holiday, the due date will be the next business day after the 25th.

A late charge of \$10 or 10%, whichever is greater, will be assessed on any account not paid on or before the due date. In addition, accounts still owing a balance at month end will be charged an additional 1.33% interest (interest is not charged on the penalty charges).

Midwest Electric Cooperative Corporation

2026 Rate Schedule

Rate: SEASONAL RESIDENTIAL, SINGLE-PHASE NET BILLING MEMBER GENERATION			Rate Number 214
Rate Class: 2 - Seasonal	Rate Cycle: 214	Approved: December 18, 2025	Page 1 of 1

Availability

Service to accounts where at least one person resides for at least part of a year. May include associated well(s), outbuildings and other structures or loads. Maximum connected load under this rate may not exceed that which may be supplied from a fifty (50) kVA distribution transformer. Available when member has a renewable generation source installed behind the meter. Subject to current conditions and safety standards established by the National Electric Safety Code, Nebraska State Electrical Division and Midwest.

Type of Service

Single-phase, sixty (60) Hertz, alternating current, at available secondary voltages.

Usage Calculation

All energy delivered to the Member during the billing period will be billed at the normal Rural Residential rates. All energy received by Midwest during the billing period will be credited back to the Member at Midwest's current wholesale cost of energy.

Rate

Billed monthly

Facility Charge.....\$ 39.50
First 500 kWh\$ 0.131 per kWh
Over 500 kWh.....\$ 0.084 per kWh
All received kWh...Credited at Midwest's wholesale cost of energy

A Power Cost Adjustment may be applied to reflect changes in Midwest Electric's wholesale cost of power.

Terms of Payment

Payment is due on the 25th of the month following the period for which the bill is calculated. If the 25th falls on a weekend or holiday, the due date will be the next business day after the 25th.

A late charge of \$10 or 10%, whichever is greater, will be assessed on any account not paid on or before the due date. In addition, accounts still owing a balance at month end will be charged an additional 1.33% interest (interest is not charged on the penalty charges).

Midwest Electric Cooperative Corporation

2026 Rate Schedule

Rate: SEASONAL RESIDENTIAL, SINGLE-PHASE ELECTRIC VEHICLE CHARGING			Rate Number 215
Rate Class: 2 - Residential	Rate Cycle: 215	Approved: December 18, 2025	Page 1 of 1

Availability

Service to accounts where at least one person resides for at least part of a year. May include associated well(s), outbuildings and other structures or loads. Maximum connected load under this rate may not exceed that which may be supplied from a fifty (50) kVA distribution transformer. Must have an electric vehicle that is stored primarily at this location with appropriate charging infrastructure installed. Subject to current conditions and safety standards established by the National Electric Safety Code, Nebraska State Electrical Division and Midwest.

Type of Service

Single-phase, sixty (60) Hertz, alternating current, at available secondary voltages.

Rate

Billed monthly
